2nd CYCLE NAAC ACCREDITATION 2021

CRITERIA – 07

7.2: BEST PRACTICES

7.2.1: Describe two best practices successfully implemented by the Institution as per NAAC format provided in the manual.

THE NATIONAL ASSESSMENT AND ACCREDITATION COUNCIL, BANGALORE

An abstract graphic design featuring a large white circle on the left side, partially overlapping a dark purple background. The purple background contains several concentric, textured circles that resemble ripples or a target. The overall aesthetic is modern and technical.

BEST PRACTICE-I

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

BEST PRACTICE- I

Title of the Practice:

Distribution of old practical copy hard covers to B.Sc. and M.Sc. students.

Objective of the Practice:

The main objectives of this practice are as under:

1. To reduce the financial load of students.
2. To conserve the environment by reuse of the item.
3. To reduce environmental pollution.
4. To develop awareness and capability of students for 3R (Reuse, Recycle and Reduce).
5. The distribution of old hard covers also nulls the storage area in the department.

Context:

Most of the students of college are from rural background having low income and paying capacity. The students are unable to purchase books and stationeries themselves due to poverty and limited source of family income. College provides some stationary items to the ST-SC students like pencil, copy, sharpener and scale from ST-SC stationary fund provided by the Government of Chhattisgarh. All the students belonging to ST, SC and OBC categories receive the scholarship from the Government of Chhattisgarh. The faculties of science countered this situation by thinking to help students by providing old hard covers practical copy to B.Sc. (Biology), M.Sc. Botany and M.Sc. Zoology students. Thereafter, the faculties of Botany and Zoology

departments collectively provide previous years old practical copy hard covers submitted by private students to all current year students. The above practice plays a key role towards environmental conservation by the concept of 3R (Reuse, Recycle and Reduce) as well as this practice also provides financial assistance to the students of the college.

The Practice:

All students receive two covers (one each for botany and zoology) from the concerned departments which are resubmitted again during his/her botany and zoology practical exam in each academic session. After that student receives his/her previous years old practical covers again from the concerned departments after declaration of university results. The collected previous years old practical covers are again reused in the subsequent next year practical examination. In this way a student reuses previous years collected covers in each academic session of university practical exams (3 times) and saves his/her money approximately two hundred rupees in B.Sc. course. The cost of each practical cover in the market book shop is ranging from Rs. 20 to Rs. 30. Each M.Sc. Botany and M.Sc. Zoology student saves at least five hundred rupees in his/her course by getting cover files and assignment folders from the respective departments. The cost of each practical herbarium file cover in the market book shop is ranging from Rs. 40-50 whereas, the cost for the assignment folder is ranging from Rs. 05-10. The college provides approximately 600 cover files to concerned students. The above practice not only saves the environment but money as well. The practice is of great significance to null the storage area in the concerned department thereby providing ample space for accommodating several laboratory equipment and instruments.

Evidence of Success:

All the students of the concerned departments become very delighted to receive the practical cover files and assignment folders free of cost again and again from the departments. The students not only receive the file covers but are also trained to reuse and the importance of recycling the products. The above practice inculcates a temperament of environmental safety and space management among the students.

Problems Encountered and Resources Required:

For this purpose, the departments don't require funds. Only important aspect is to modulate the mindset of the teachers and students for 3-R (Reuse, Recycle and Reduce) for sustainability along with the conservation of environment and also space management.

आज दिनांक 8 नवंबर 2021 को प्राचार्य महोदय के संज्ञान से प्राचार्य कक्ष में बैठक आयोजित की गई। बैठक में निम्न स्तरों के प्राध्यापकों का उपस्थित रहे -

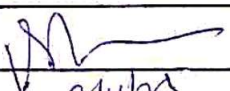

- 1) डॉ. अच. एन. डूबे (सहा. प्रा. राजनीतिशास्त्र)
- 2) डॉ. वी. क. झा (सहा. प्रा. रसायनशास्त्र)
- 3) डॉ. चन्दन कुमार (सहा. प्रा. प्राणीशास्त्र)
- 4) श्री टी. शास्त्री राहंगडाल (सहा. प्रा. वनस्पतिशास्त्र)

बैठक में M.Sc. Zoology के शुद्धांत उपरान्त प्रतिक्रिया पर चर्चा की गई एवं बेस्ट प्रैक्टिस के लगातार संचालन के लिए चर्चा हुई। इसके अन्तर्गत 2019 का प्रश्नपत्र की गई प्रायोगिक फाइल एवं assignment folder के वितरण का विस्तार करते हुए M.Sc. Zoology के विद्यार्थियों को भी बेस्ट प्रैक्टिस के अन्तर्गत पुराने प्रेरित फाइल एवं assignment folder वितरण करने की अनुमति दी गई। ताकि नए नामांकित M.Sc. Zoology के विद्यार्थियों को प्रायोगिक फाइल मिश्रण उपलब्ध हो सके जिससे की विद्यार्थियों का वितरण भार कम हो सके एवं पर्यावरण सुरक्षा कार्य में सहयोग हो सके।

BEST PRACTICE-II

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

BEST PRACTICE- II

Title of the Practice:

To serve social wellness through blood donation.

Objectives of the Practice:

The main objectives of this practice are as under:

1. To promote blood donation awareness among students and college staff.
2. To promote blood donation by college students and staff in emergency so as to save the life of needy persons.
3. To motivate the students to serve for society welfare and value of life.

Context:

As per the census 2011, the population density of district Surajpur is 283 persons/sq.km. The literacy rate is 60.95% and the sex ratio corresponds to 980 females per 1000 males. The area is predominated with anemic females as per the survey. The college campus is situated in semi-urban area and the students of the college belong to a rural background. The college has National Service Scheme (NSS) and Red Ribbon Club units for social welfare. The Surajpur district headquarter has a district hospital with a blood bank unit. Most of the patients come to the hospital from adjoining villages having BPL card for their medical treatment. Due to low literacy level in villages, there is almost least awareness for blood donation. The economic background of the inhabitants is very low so they are unable to

get proper treatment from private hospitals. 'Rakt Dan Maha Dan (Blood Donation is the Greatest donation)" is the quotation and motto of the college to serve the persons in need. The college Red Ribbon Club works with CGSACS and NACO for HIV awareness and blood donation.

The Practice:

During the admission of newly registered students, all the departments gather information of the student's blood group in the admission register which helps for scrutiny of student's blood group at the time of emergency blood need to hospitalized patients. There is no discrimination about caste, sex, religion and society for blood donation by the college unit. The blood donation is carried out through the Red Ribbon Club of the college. Whenever any person in need of blood consults any staff of the college staff for emergency blood requirement, the particular staff consults immediately to the co-coordinator of the Red Ribbon Club unit of the college, who informs the concerned student for blood donation immediately as per the requirement. The concerned student goes to the blood bank of district hospital and other hospitals immediately for blood donation. The District Government Hospital, Surajpur has a collaborative arrangement with our college for need based blood donation. In other words, whenever the said hospital needs blood for needy patients, our students donate blood and save precious human life. In this way college administration promotes blood donation awareness among the students and saves many lives.

Evidence of Success:

Students become very delighted to help an unknown person during an emergency situation. They are also motivated for such activities by awarding appreciation certificate by the hospital administration. The college

faculty members, other students and family members of the blood receiver appreciate and accord humble gratitude to the student and college staff for their collective efforts to save an unknown person. The students are emotionally attached to the people whom they rendered help during emergency needs. The above prospects inculcate a positive temperament among the students to enhance their vision about the value of life and the importance of blood donation which saves the lives of several needy peoples.

Problems Encountered and Resources Required:

For this purpose, the college doesn't require any funds. The need of the hour is to modulate the mindset of the college students and staff for blood donation to save the life of known and unknown needy ones and their value of life.
